Portfolio : <https://atharva-deshmukh1.github.io/Portfolio-Website/>

## Summary

---

Innovative software developer with expertise in HTML, CSS, JavaScript, React.js, and Python. Proven track record in designing dynamic web applications with a focus on intuitive user interfaces. Committed to staying current on industry trends. Eager to contribute skills and enthusiasm to a dynamic development team.

## Skills

---

### Technical Skills:

- Solid understanding of HTML, CSS, and JavaScript for crafting engaging user interfaces.
- Skilled in building dynamic and responsive web applications using React.js and Tailwind CSS.
- Familiarity with MySQL database management and SQL queries.
- Understanding of tools like Git and Github.

## Projects

---

### Menswear Website:

- Developed a responsive eCommerce website using HTML, CSS, and JavaScript.
- Organized the website into three main sections: shirts, t-shirts, and shoes.
- Implemented a product interaction feature where tapping on any product triggers a popup personal information form.
- Enhanced user engagement with real-time feedback, displaying a confirmation message immediately upon form submission and clicking the "place order" button.
- Additionally, created a dedicated Adidas section to provide a specialized shopping experience for Adidas products.

### Currency Converter:

- Developed a dynamic and responsive Currency Converter app using React.js and Tailwind CSS.
- Utilized an API to fetch real-time currency conversion rates, ensuring accuracy and up-to-date information.
- Gained practical experience in working with APIs, enhancing understanding of asynchronous JavaScript programming.

### Image Search Engine:

- Developed an image search engine using HTML, CSS, and JavaScript.
- Provides a user interface for inputting a specific image category.
- Utilizes an API to fetch and display images based on the user's input.

## Education

---
